Switching risks

- Waiting periods (pre-existing, specified diseases, maternity) normally restart with a new policy. Under IRDAI portability rules you can ask for credit of the waiting period already served, usually only up to the previous sum insured - get this in writing before switching.
- Any accumulated no-claim / cumulative bonus on the current policy may not fully carry over.
- Do not let the current policy lapse until the new one is issued and the portability request is accepted (keep a gap-free continuity).
- For the increased part of the sum insured, waiting periods usually apply afresh.
- Child is planned but maternity cover is not found in the proposed policy.

Questions to ask the insurance advisor / insurer

1. Please confirm the pre-existing disease waiting period (36 months) and which of my conditions it covers.
2. What is the list of non-payable items / consumables, and is there any add-on to cover them?
3. What are the claim intimation timelines and documents needed for cashless and reimbursement?
4. From what age can a newborn / child be added, and is maternity covered with what waiting period?
5. If I port to the new policy, how much waiting-period credit will I get, and is it in writing?
6. Will my accumulated no-claim / cumulative bonus carry over?
7. Please explain this clause in simple terms: p.43: "b. The Company reserves the right to modify, add or restrict any Network Provider for Cashless facility at its sole discretion."
8. Please explain this clause in simple terms: p.44: "If requested by the Company, at the Company's cost, the Insured Person must submit to medical examination by Medical Practitioner app"
